Unser gesamtes Sortiment bezieht seine Farbigkeit aus der MALTZAHN-Farbmatrixt „Farbe mit System“. Für die Premiumkollektion „color + design explosion“ by sieger design erweiterten wir zunächst das Spektrum der sonst üblichen Farbwelten im Teppichdesign. Es entstand ein Menü aus 87 Farbtönen, das unser Bekenntnis zur Farbe augenfällig unterstreicht. Für die Segmente Hotel, Home und Objekt entwickelten wir dann jeweils eigene Farbwelten, die das ursprüngliche Menü der Premiumkollektion ergänzen.

So entstand eine systematisch aufgebaute Farbskala, die wie eine Datenbank funktioniert. In diese Datenbank eingeflossen sind umfangreiche Analysen zur Marktähnlichkeit einzelner Farbwelten. Darüber hinaus haben wir den jeweiligen Einsatzort unserer Teppiche berücksichtigt und die Auswahl der Farben darauf bezogen. Ganz automatisch ergibt sich daraus ein jeweils eigener Akzent der Kollektionen. Vorteil dieser Systematik: Das jeweils dem Einsatzort angemessene Farbspektrum ist bereits durch die Farbmatrixt definiert. Die Festlegung auf

marktfähige Farbthemen sorgt für verlässliche Gestaltungslösungen beim textilen Bodendesign. Die Basisfarben und die daraus abgeleiteten Helligkeitsstufen sind so gewählt, dass sie perfekt miteinander korrespondieren. Das bedeutet auch: Wir lassen systematisch alles weg, was die Harmonie und die Kernaussage einer Kollektion verwischt.
