# CONTEMPORARY CLASSICS

Create a truly individual look to your interior with this beautiful mix and match collection of carpet designs and colours.

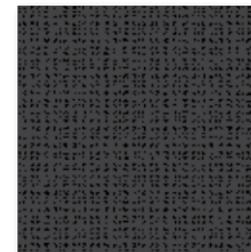

This collection of axminster carpet designs was inspired by the comfortable elegance of country house hotels.

## 1 Choose from five design options

Five classic designs reinvented for a modern yet timeless look. A textured backdrop creates a natural link so all designs cleverly mix and match.

Each design comes in the same 10 colourways so you can design your floors with just one colour, or create your own palette of colours – to create your boutique look with that designer touch.

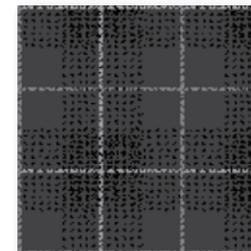

### just texture

A canvas-effect backdrop used in each design. Suits small and large areas. Ideal for borders, stairs and corridors.

### lavish damask

Statement decorative design – perfect for larger areas such as an entrance lobby or function room.

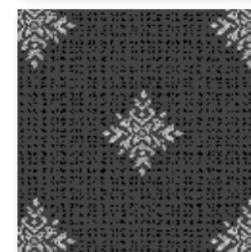

### tartan touch

Smart and contemporary, a modern take on a timeless design.

### soft scroll

An elegant and sophisticated design that will transform any interior décor.

### modern motif

For classic chic, a design that is simply stylish.

## Optimum colourbank

The neutral tones and vibrant colours used in this collection are taken from our versatile Optimum colourbank – including the Stone and Linen highlights, used across all designs.

Soft, natural shades provide the perfect backdrop for soft Ocean blue, bursts of Lime Zest and the warming hues of Cyclamen and classic reds.

### Monochromatic style

For a soothing and restful look, use neutral tones – making it easy to add blended colours, textures and patterns beautifully.

Or choose warmer tones to create a welcoming, cosy feel...

*"Since the shades in your interior will blend together, you can let your mixing-and-matching skills run wild with added textures and patterns in your furnishings for added visual interest."*

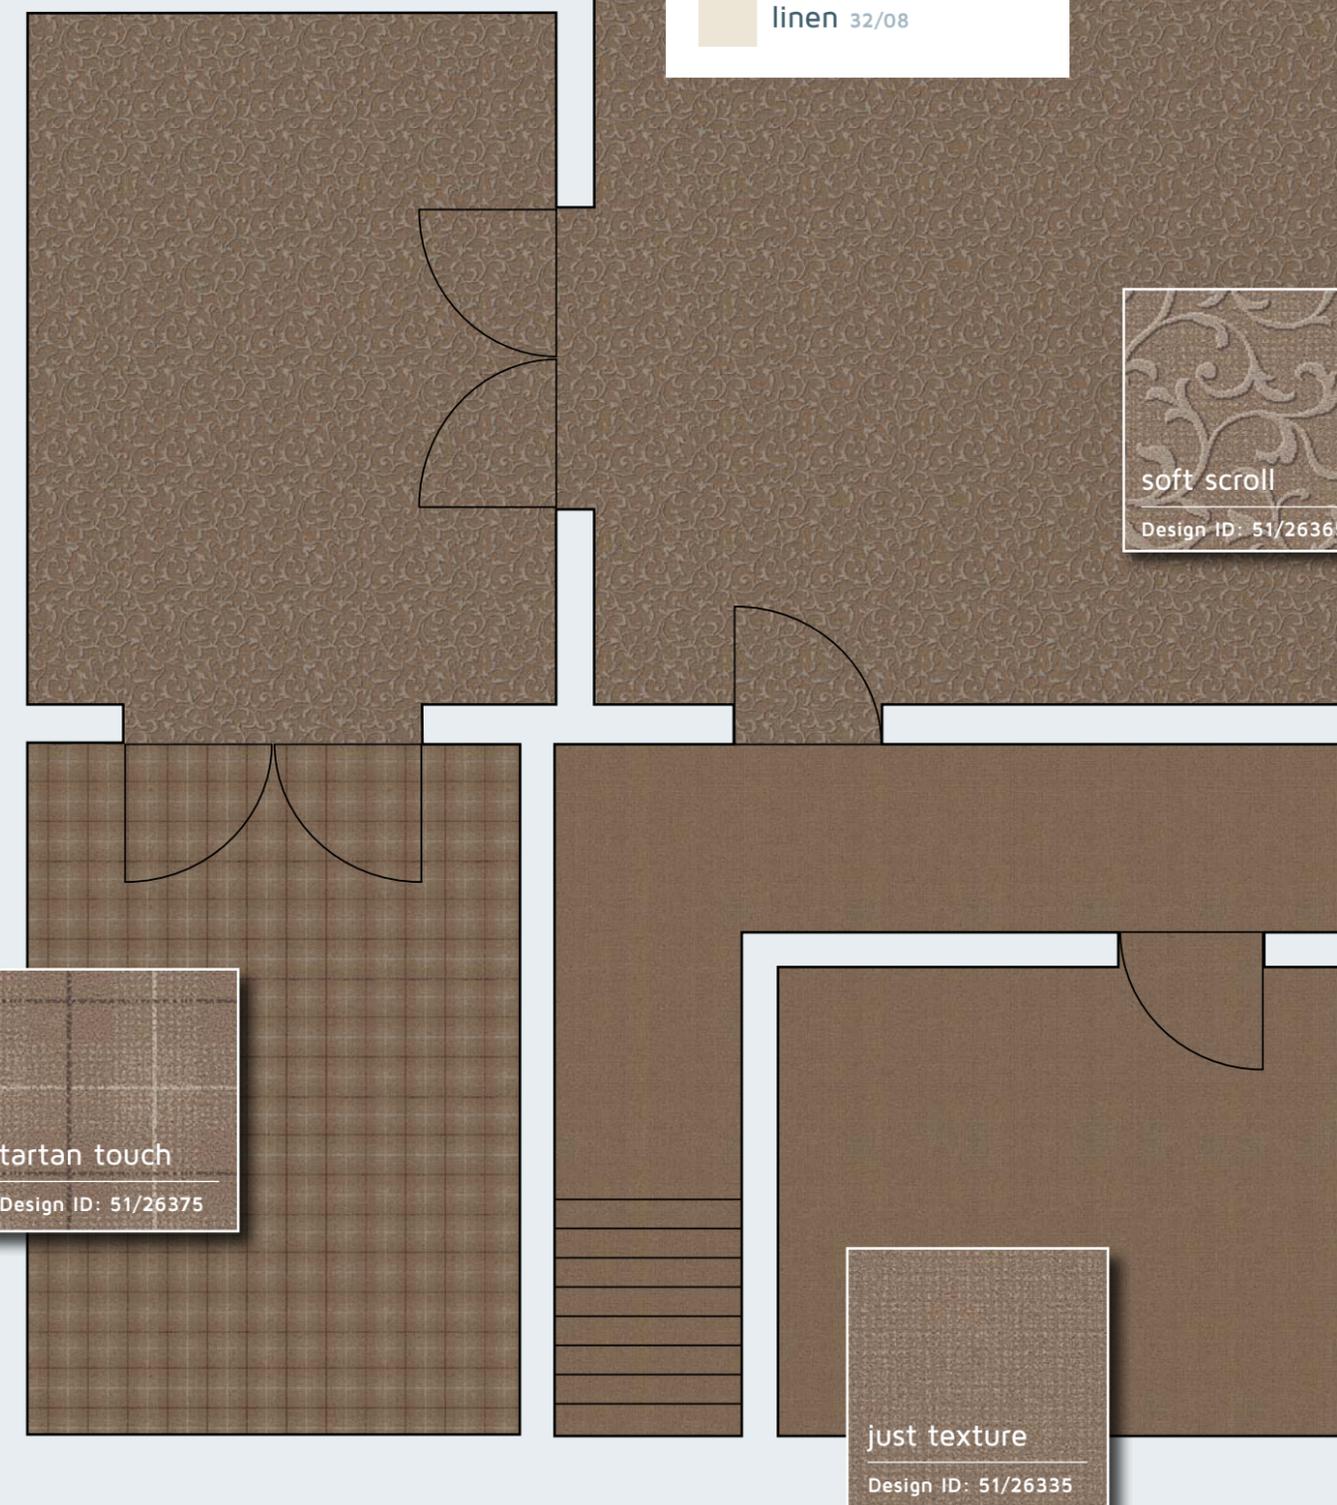

### Complement and contrast

Alternatively, create a palette with complementary or contrasting colours – perhaps to break up larger areas into smaller, more informal places or to create a different feel in different rooms. We have given you a few suggestions in the pages ahead – but unleash your creativity with a mix and match floor plan.

## 3 Create your floorplan

All 5 designs have the same background texture which links interiors together for a co-ordinated look.
